News around the globe

CNIL's notice to employers for monitoring employees

The President of CNIL, the French Data Protection Authority issued a formal notice to several organisations for using staff monitoring devices which it found violative of the principle of minimization and appeared excessive under GDPR.

The concerned organisations are given three months' time to make their time control systems compliant of GDPR and if not complied will be liable of monetary penalty.

Apple's iOS 14 packed with privacy

Apple has confirmed that later this year with update of iOS 14, the App Store will help users to understand app's privacy practices before they download it and apps will be also be required to obtain the user's consent through the AppTrackingTransparency framework to track them or access user device's advertising identifier. Apple also released a video on privacy.
