# Medical retailer settles to resolve data breach class action lawsuit

Solara Medical Supplies proposed a USD 9 million settlement to resolve a class action lawsuit related to a 2019 data breach has received preliminary approval from the Court. Solara Medical Supplies, which provides products and services to help people manage their diabetes, was the victim of a phishing attack which contained the protected health information of patients and sensitive employee information. The settlement has received preliminary approval from the Court and a final hearing and the deadline for submitting a claim is August 8, 2022.

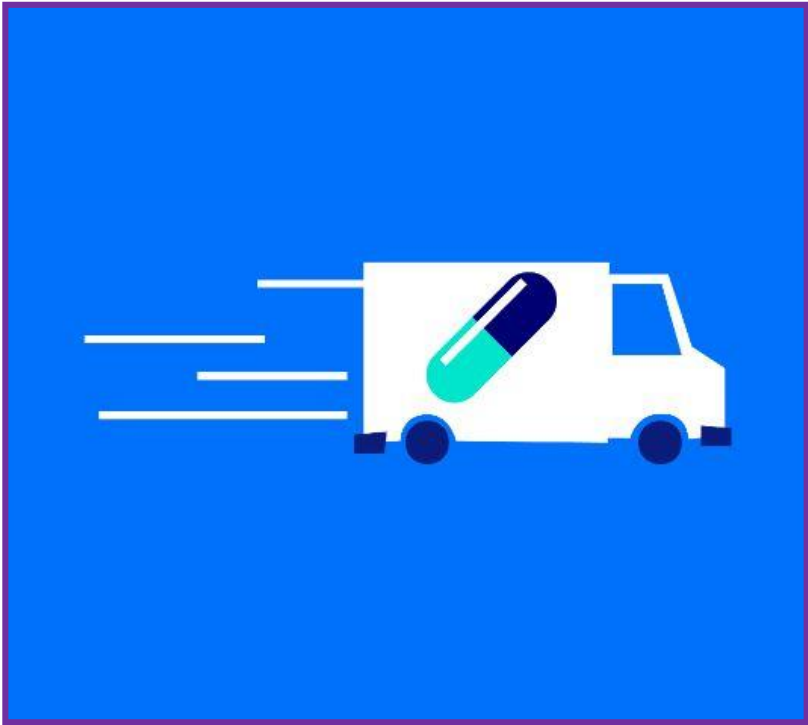

Information Commissioner's Office

# **UK Data Protection Watchdog fined Clearview AI and ordered to delete data**

The Information Commissioner's Office (ICO) sanctioned a fine of GBP 7,552,800 on Clearview AI for using images of people in the UK, and elsewhere, that were collected from the web and social media to create a global online database that could be used for facial recognition. The ICO has also issued an enforcement notice, ordering the company to stop collecting and using personal data of UK residents and to delete the data of UK residents from its systems.

# **Class action lawsuit filed against pharmacy delivery service over a data breach**

Injured Workers Pharmacy (IWP), a drug delivery service had failed to protect the private information of its patients which led to a data breach and a class action lawsuit was filed against them accordingly. According to the complaint, the company failed to protect the personal information of more than 75,000 customers amid a data breach and then didn't notify the patients until nine months later. The lawsuit was filed in Massachusetts federal court and the plaintiffs seek to represent a class of current and former IWP customers.
